

RAMESH REDDY EEDULAKANTI

+91 9542620470 — eedulakantiramesh@gmail.com — [LinkedIn](#) — [GitHub](#)

[LeetCode](#) — [HackerRank](#) — Hyderabad, Telangana, India

Professional Summary

Aspiring Software Engineer skilled in Python, JavaScript, React, FastAPI, SQL, and Git, with a strong foundation in web development, database management, debugging, and software engineering principles. Experienced in developing applications, integrating AI features, solving technical problems, and using version control for software projects.

Projects

IntelliDesk AI – AI-Powered Task Management Application

[GitHub](#)

React, FastAPI, Python, SQLite, Ollama, Git/GitHub

- Built a full-stack task management application using React and FastAPI for creating, updating, deleting, and tracking tasks.
- Integrated Ollama for AI-powered task analysis, providing task priority, estimated time, complexity, and recommended steps.
- Connected the frontend with backend APIs and used SQLite for application data storage.

Computer Vision-Based Defect Detection System

Python, OpenCV, Computer Vision, Arduino

- Built a Python and OpenCV-based system to detect and classify defects from images.
- Applied image processing techniques and integrated Arduino-based alerts for automated response.

Experience

Data Associate L1 Intern – Infotact Solutions

Remote — 2 Months

Python, Flask, SQLite

- Developed a Flask-based To-Do web application using Python, SQLite, HTML, and CSS.
- Implemented basic CRUD functionality and worked on debugging and application improvements.

Technical Skills

Languages: Python, JavaScript, SQL

Frontend: HTML, CSS, React

Backend: FastAPI, REST APIs

Database: SQL, SQLite

Tools: Git, GitHub, VS Code, Linux Fundamentals

Cloud: AWS Fundamentals

AI & Testing: Ollama, AI Integration, Manual Testing

Education

AVN Institute of Engineering and Technology, Hyderabad

2022 – 2026

B.Tech in Electronics and Communication Engineering

CGPA: 8.4

Certifications

- **Python Development Internship** – Infotact Solutions
- **Cloud Computing** – NPTEL (Silver)
- **Data Analytics with Python** – NPTEL (Elite)
- **Machine Learning for Engineering and Science Applications** – NPTEL
- **VLSI Internship** – CODTECH IT Solutions
